

POST A COMPLIANT JOB ADVERTISEMENT

Want to post a job ad without having to publish it multiple times on various platforms to demonstrate Labour Market Testing?

Labour Market Testing (LMT) requirements are necessary and can be time consuming and arduous. **WorkinAUS is the only solution to free up those constraints and pain points.**

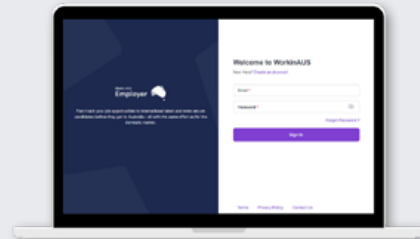

WorkinAUS enables employers and recruiters to create one compliant job advertisement on platform that is amplified through its ecosystem of national job boards and posts directly to **Workforce Australia** without requiring a directors ID to satisfy the Labour Market Testing requirements.

WorkinAUS aims to modernise the recruitment infrastructure to enable employers and recruiters to better appeal to candidates, and post simultaneously to the domestic and international labour markets.

The easiest way to post a Labour Market Testing compliant job advertisement is through WorkinAUS! Best of all, it is included in all paid job postings.

- Embed compliance from the outset
- Multi-posting of job advertisements
- Create compelling job advertisements

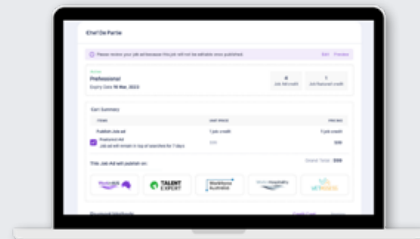

Here's how, in just 3 simple steps:

Step 1: Register to post paid job advertisement or **subscribe** to a paid plan

Step 2: Create a job, tick the **visa Labour Market Testing** box and follow the prompts.

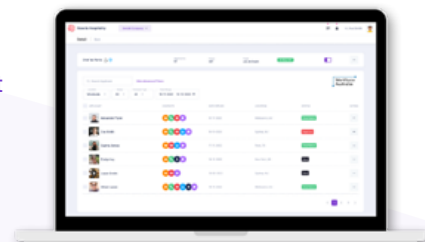

Step 3: Publish the advertisement - The job advertisement will be **simultaneously posted to both the domestic and international labour markets** through WorkinAUS, **Workforce Australia** the governments national job board, and an ecosystem of other job boards.

Evidence report

After the mandatory 30 day period, you can prove that you have **“tested the market”** by downloading a report that contains the relevant information to submit as part of the Labour Market Testing process.

Information in this report includes:

- copies of the advertisements
- the date the job ad was published and it's expiry date
- job board websites/platform it was published to
- results from each job board containing the number of applicants and their details
